

SINGER®

Inspiration™

Model 4210 Features and Benefits

Simply the **easiest.**

Exclusive No-Error Threading™	Threading can be one of the most annoying chores of sewing. The Inspiration™, however, has fault-tolerant upper threading system that works even if you forget to raise the presser foot. This system eliminates two big threading problems: missing the tension and not threading the take up lever. Thread the machine in seconds! No tediously following manual's instruction to thread the machine, just follow the arrows on the machine...and you are threaded the machine correctly in a snap
Exclusive Sure-Fit Bobbin™	Eliminate any confusion when setting the bobbin in place. With the SINGER® exclusive Sure-Fit Bobbin™, it is easy to correctly insert the bobbin because it only goes in one way! There are no bobbin cases to remove or adjust. Because it also a top-loading bobbin, it is easy to monitor the thread supply.
Exclusive Duratec™ Frame	Duratec™ is a unique space-age material that unites high-strength resin, rugged glass fibers, and selected mineral compounds into a material equal to aluminum in durability but superior in other characteristics. Duratec™ offers greater strength, reduced weight, and improved functional performance is integrated in the SINGER® sewing machine.
StayBright LED Light™	A modern convenience that addresses the second-most asked for feature by consumers-- lighting that won't burn out. This long lasting (100,000 hours) bulb stays cool, regardless of how long the machine is operated and provides a brighter more natural light than an standard incandescent bulb.
10 Built-In Stitches	A variety of stitches for fashion sewing, quilting, crafts, home decorating and decorative sewing, always ensures the perfect stitch for every project.
Built-In Stretch Stitches	Specially designed stitches that add strength and flexibility to seams, especially useful when sewing on knitwear. Some of the stretch stitches can also be used for decorative embellishment.
Automatic Four-Step Built-In Buttonholes	Buttonhole sewing is a simple four-step process that provides reliable results.
Automatic Needle Threader	After effortlessly threading the machine this time-saving feature automatically threads the eye of the needle!
Adjustable Stitch Length	Length can be set as desired for each individual application.
Adjustable Stitch Width	Width can be set as desired for each individual application.
6mm Stitch Width	Stitches can be set for a maximum width of 6mm.
Reverse Button	Push the conveniently located Reverse Button to sew in reverse, such as when reinforcing seams.
Multiple Needle Positions	Needle position can be changed for individual projects, such as inserting zippers or cording and topstitching.

Model 4210 Features and Benefits

Twin Needle Capable	Simultaneously produces two rows of parallel lines of stitching to create sporty professional-looking hems, sophisticated top-stitching or decorative embellishment.
Automatic Pressure System	This feature automatically adjusts the pressure for sewing on fabrics from the lightest weight tricots to the heaviest denim, to maximize feed accuracy.
Automatic Tension	This system ensures stable stitch quality, whatever type of fabric is being used.
Jam-Proof Bobbin System	This is a system in which the bobbin case actually floats above the hook, precluding thread jams. The machine will not jam, even when sewing on sheer fabric or no fabric at all!
Automatic Bobbin Winder Declutch	Needle bar easily disengages for winding the bobbin
Free Arm	Provides professional results and easy access to cuffs, collars, pant hems and other difficult-to-reach areas.
Thread Cutter	Located for precise thread cutting, eliminating the extra step of cutting thread with scissors.
4-Segment Feeding System	This is a specially designed feed dog that ensures that the fabric is picked up and supported from the front of the presser foot to the rear. This makes for much more accurate feeding.
Electronic Foot Controller	Guarantees consistent sewing speed with no jump starts.
Ease of Operation	Sewers want the Inspiration™ because it is simple to set up and intuitive to use. The dials are clearly marked, easy to grip and smooth to operate.
Snap-On Presser Feet	Change from one foot to another effortlessly with Snap-On feet. No need for screwdrivers to change feet.
Accessories	Auxiliary Spool Pin General Purpose Foot (on machine) Small Thread Spool Cap Medium/Large Thread Spool Cap One-step Buttonhole Foot 3 One-Way Insertion Bobbins Zipper Foot Blind Hem Foot Feed Dog Cover Plate Fabric Guide Lint Brush for Cleaning Needles Package Cloth Machine Cover
On Board Storage	Keep the accessories in the Extension Table Accessory Storage area, and they are always easily accessible.
Warranty	The SINGER® 4210 has a 25-year limited warranty including 25 years parts, 2 year electronic and 90 day labor.
Consumer's Choice	More people own SINGER® machines than all other brands combined.
Portable and Cabinet Mountable	Machine has a built-in carry handle, making it easy to transport the machine. Machine can be mounted into a cabinet.
